

About faith in the love of God

Children, who are still at the beginning of their lives, have many questions. That's a good thing, how else should they learn to do the many daily things in life.

Many seekers have questions too. The bible provides answers, guidance, and practical instructions about recognizing and experiencing something about the other world. Jesus speaks of "My kingdom is not of this world ...". The kingdom of Jesus is the realm of true love and peace.

The world with its dark influences makes it difficult for us to always be aware this kingdom. Still it is possible. Through good thinking and good action, our consciousness is focused on the kingdom of God and our faith is strengthened.

The origin of the material world is God's word. Everybody can study and experience this word in the scriptures by opening this treasure and doing good works. Life is the one "I am" in everything that is, also in me. If I am ready to serve this One in all, then I will find peace and contentment.

Faith in this omnipotence and power, in God's infinite love and presence, immediately changes my life. Faith in this love changes our lives and makes us a great human family in God's love, without separation and prejudice.

Every human being is a member of one body. If we are ready to give up our self-centeredness on this path of unity of all people and ask for God's help and support, we will experience the oneness of God in this faith. The power of faith in the unity of God's essence in all existence opens the door to love and eternity.
