

## **About the birth of love inside of us**

Contemporary media are reporting daily about many secular events. The Bible and other sacred writings on the other hand tell about the work of God on earth. According to the general definition God is referred to as "a supernatural being or a higher power." (Source: Wikipedia) This description is missing the aspect of love.

God greatness is expressed kindly and faith-strengthening by himself and his servants.

Jesus performed miracles selflessly throughout all of his life to show God's greatness and presence. By his exemplary conduct we can recognize his divine attributes.

Love, truth, peace and non-violence are the divine values that will lead us on to a liberating way into God's unity.

God's great love has given us the freedom of personal action. Everyone can decide for himself which way he would prefer to go.

If man connects with the material, he will reap worldly fruits. A man, who lives compassion and mercy and loves the others with all of his heart, praises the nature of God and honors Him, will accordingly reap mercy and love.

The longing for a God of love and grace is fulfilled in Christ.

The Advent season is a time of preparation for Christmas, the birth of conscious love in our hearts. Christ is born to teach us the everlasting love of God and calls us to follow him.

As we trust in this love, we trust in Christ and will find consistent joy in the presence of the one God, who is alive in all hearts.

Willibald
